Mad Dog:

Fit like hand in glove and i'm up

Take a shot like the last of the stand drop

Boom bom bom

Check if alien

That's the time to pull out the handcuffs

Dials a one on a one minute call

Be gone if i never done the cheap rough

She calls and asks when we can fuck

And who else wants the Jungle Lay

So she dials a one on a one minute call

Be gone if i never done the cheap rough

Unless she wants a Jungle Lay

So she calls everyone wonderin' when we can fuck

What does she come to the bar wearin'

'Cause when the girls put on the starin'

I love watchin' all this dancin'

By the girls who are as about as luscious acting

Rude girl and her martial firing

"Ooh well, get the spot!" they whinin'

Street Dog, they caught me rhymin'

Turned around and got fucking blinded

My favorite beds get no shy women

When or wherever to be drivin'

My take come to the face

When i see that beat goes the drum

And the bass is blastin'

Freak if i bone

It's like i lost control

I'm all alone think i'm toppin'

Get high when i drive a car

And try to drink and drive

When i'm private parking

In the Beamer or a fly Mercedes

Gettin' lit off, high on the great weed

I like the girls, I like the ladies

I light my world to drive her crazy

In the Beamer or a fly Mercedes

Gettin' lit off, high on the great weed

I like the girls, I like the ladies

I light my world to drive her crazy
