

Tricky, The Moment I Feared (For You Version)

For you I put a dress on
I don't dress and impress-on
My lips they taste like licorice
Scream if you're ticklish
Slowly slowly slowly I like you lowly
Slowly slowly slowly I like you lowly
You want me dress on
Try to impress-on
It seems like the boys are pretty
It's a city committee
I can't foresee
Still like i'm waiting
The original original
Just don't take my physical
