

Tricky, You Don't Wanna

Ambersunshower :
You want to estimate
The distance that it takes
To find a lover lover
You want to rectify
This mad look in my eyes
Then find your other lover
I found out how to be perfect for you my dear
While I was bumping around bumping around
You want to estimate
The distance that it takes
To find a lover lover
Come on let's rectify
This mad look in my eye
Come on yes let's discover
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
Fail
One day you'll hold your head
So dark and withered dead
Wish you were here
A simple task to feed
Of unforgiven greed
Wish you were here
I found out how to be perfect for you my dear
While I was bumping around bumping around
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
Fail
You want to rectify
This mad look in my eye
I found out how to be perfect for you my dear
While I was bumping around bumping around
One day you'll hold your head
So dark and withered dead
Wish you were here
A simple task to feed
Of unforgiven greed
Wish you were here
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
Fail
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
You don't want to face me when you
You don't want to make me when you
You don't want to take me when you
Fail
it's over /6/
