

Trisha Yearwood, You Don't Have To Move That

You don't have to move that mountain
Just help me Lord to climb it
You don't have to move that stumblin' block
Just show me the way around it

We must climb a great high mountain
To reach God's gracious kingdom
In His words you'll find the strength
If you will just believe them

You don't have to move that mountain
Just help me Lord to climb it
You don't have to move that stumblin' block
Just show me the way around it

Well, the way is filled with pitfalls
And sometimes we may falter
You can have His grace, my friend
On your knees down at the altar

You don't have to move that mountain
Just help me Lord to climb it
You don't have to move that stumblin' block
Just show me the way around it
