

Triumph, Play With The Fire

I see the passion that burns in your eyes
And I feel the spirit inside of me rise
When it starts in me
In the heart of me
There's a part of me burning tonight

PRE-CHORUS:

When she calls to you, no matter what you do
She'll be claiming you,
Taking you higher and higher

CHORUS:

Play with the fire
With a hunger that runs in your soul
Burning desire
Is taking you out of control
There's no fighting it
No denying it
Something's inside of us
Driving us closer tonight...into the fire
Time marches on, but love never dies
The risks that we run will keep it alive
She will come again (2nd time - Here she comes again)
Like a burning flame
And you can't stop the pain of desire,
When she calls to you...

PRE-CHORUS

CHORUS

Here's she comes again
Like a burning flame
And you can't stop the pain of desire,
When she calls to you...
