

# Turbo, Burn

The sky is red, I dont understand  
Past midnight, I still see the land  
People are sayin the woman is damned  
She makes you burn with a wave of her hand  
The citys a blaze, the towns on fire  
The womans flames are reaching higher  
We were fools we called her liar  
All I hear Burn  
I didnt believe she was devils sperm  
She said: Curse you all! Youll never learn!  
When I leave theres no return  
The people laughed till she said Burn!  
Warning came, no one cared  
Earth was shakin, we stood and stared  
When it came, no one was spared  
Still I hearBurn!  
You know we had no time  
We could not even try  
You know we had no time  
You know  
The sky is red  
Warning came, no one cared  
Earth was shakin, we stood and stared  
When it came, no one was spared  
Still I hearBurn!
