But you stand with empty hands
Always just a little rage
You, almost get a chance to get in there
If you wanna, don?t be afraid

Do not wring your hands when you are still strong
Try smash the wall
And reach out for your goal
You be surprise know strong you are

All the things you?ll never have
That why we still have a leach on your neck
And you?ll always be a slave

Do not wring your hands when you are still strong
Try smash the wall
