

Turbo, The Limit(ang. warsja Granica)

Ear more than you can stand,
far more than youre allowed to do
much higher, higher than the world,
much heavier, heavier than the rain.
And harder, harder till you do feel
that your body burns, that your heart bleeds,
give a yell to let people know
you feel wrath you feel good.
stronger than wind blows,
much quicker than a river flows,
harder, harder till you feel pain.
Much longer than times been living,
much stronger than wind blows,
much quicker than a river flows,
harder, harder till you feel pain.
Maybe now, when the last time you stop
suddenly, feeling only fear
youll jump into the abyss to perish,
only to conquer your fear.
