

Tuuli, Who's The Fool Now

I smash every single star from the sky
and i, leave all my hopes and dreams behind
coz it kept raining everyday and i wont hear you when you say
im long gone and your too far away

who's the fool now x3

when you're good as gold
and when you're all mine
i'm the sun you say and im too bright
you cant bear the glare today
im standing in the pouring rain
that way you will never see me cry

who's the fool nowx13
