TWENTY ONE PILOTS, Backslide

I don't wanna...

Rat race, place to place, adding weight, Tendencies on repeat, innit, Benefit from a shoe with no lace, Take the seat with the crease in it,

I don't mind if it's lonely, I don't mind if it's fair, I don't care, you control me, Leading me anywhere.

I don't wanna backslide to where I started from, There's no chance I will shake this again,

'Cause I feel the pull, water's over my head, Strength enough for one more time, Reach my hand above the tide, I'll take anything you have, If you could throw me a line, I should've loved you better, Do you think that now's the time You should let go?

It's over my head.

Bad place on a hundred dollar bass, Kind of wishing that I never did Saturday, Is that a stain? You should change. Are you doing good? Did you solve all of your problems? Thanks for asking, in a way but, Accidentally uncovered a new one yesterday, What happened to what I brushed under the rug, I used to be the champion of a world you can't see,

Now I'm drowning in logistics.
