

# TWENTY ONE PILOTS, Chlorine feat. Ava Max (

Sippin' on straight chlorine,  
Let the vibe slide over me,  
This beat is a chemical, beat is a chemical,  
When I leave don't save my seat,  
I'll be back when it's all complete  
the moment is medical, moment is medical

living when I am tasting  
venom on my tongue  
dependent at times  
poisonous vibrations  
help my body run  
I am running for my life

fall out of formation  
I plan my escape  
from walls they confined  
rebel red carnation  
grows while I decay  
I am running for my life

hide you in my coat pocket  
where I kept my rebel red  
I felt I was invincible  
you wrapped around my head  
now different lives I lead  
my body lives on lead  
the last 2 lines may read  
incorrect until said  
the lead is terrible in flavor  
but now you double as a paper maker  
I despise you sometimes  
I love to hate the fight  
and you in my life is like...

I am so sorry I forgot you  
let me catch you up to speed  
I've been tested like the ends of  
a weathered flag that's by the sea  
can you build my house with pieces  
I am just a chemical
