East side, east side  
Didn't know where to , where to go  
Tonight we ride  
A noise in the still night  
In the dark  
The door opens  
Who'll stop me?  
No one

East side, east side  
It doesn't matter anymore  
It's hot, hot, hot, hot  
My feet scorched, hot  
Look, feel, breathe and dream  
The world i've dreamed of  
The grandest night sky of my life  
My feet are already at mach speed  
The green light in front of me  
Nothing /2x  
Scares me

They came  
Catch my back  
Must never get caught  
They came  
Catch my friends  
Though this thick fog
