\*Verse 1 Tyga\*

1989 no pressure

But to be the bestest in my section

Levels of a professional

Skip school create my own lessons

Confessions of a mad rapper

Music got me rapping

Green stretching only leads to red stretches

He's next in line for the blessing

Get your mind off minds

Hustle something and stop relying on mine

More then a legend why you letting time fly by

At age 17 addicted to ink

A rap fein who had money dreams

My chase of fame couldn't compare to what I seen

Them die government lie hard for the paper cheese

Moms crying watching her only son

Through TV mtv bet

He on now wipe me down

No longer fighting through the crowd

I control the crowd oh you like me now wow!

\*Chorus Patty Cash\*

Diamond Life

She gon ? tyga right

Playboy and socialites

Young and Fly Fly Fly

Diamond Life

She gon ? tyga right

Playboy and socialites

Young and Fly Fly Fly

Verse 2

Back to the cool motivational roads

No guidance just violence in probational homes

Thinking my high routes is all out

Music gotta be my way out

Family gathered around I gotta make em proud

Pops popped in the penatenary laided out

Hoping his son fell under a different cloud

I'm speaking directly into the crowd

Nothing personal

Just thought you would love to know the person

Far from perfect

But nearly word perfect

Must be he weighed him

On a scale form 1 to me, me

Even the greatness

Money equal a every 10 haters

The rest couldn't make it though the unlikely behavior

So be patient

Or end up the next patient

Emergency room, newspaper

The new rappers call em street actors

Music wise they playing safety

And I'm shooting on safety aiming for greatness

\*Chorus Patty Cash\*
