

Tyga, Press 7

Love to say I'll wait
but you know I don't pretend
(I don't pretend)

I'm gonna go and get a new girlfriend
yeah I'll get myself a better girlfriend, yeah.

1,2,3, oh

(your gonna like this one)

first off, let me clear my chest

start it off with no baby steps

skip right to the moment where babies come next

grip tight holding ourselves, till theres nothing left.

theres two choices I'm your boyfriend and lets just forget.

After that you plead like I can't believe what we did

so the only option was to agree and keep it secret

all your friends makin you think that you're just another cheerleader on his team, Tyga man's a play

see but don't believe what ears can hear and what eyes cannot see

you see me on a daily baby

now wheres my time for another lady?

get over it

trust me, faithfully

I can be all that you need.

(Chorus:

Say you wanna let me go

and that it's gonna have to end

you can go and get a new boyfriend

but you'll never get a better boyfriend

(not like me)

I'd love to say I'll wait

but you know I don't pretend

(I don't pretend)

I'm gonna go and get a new girlfriend

Yeah I'll get myself a better girlfriend.

-

Them all mentioned you let your guard down

but you wasn't so we took them all down and therefore

future turned into riches, no more penny pinching

shopping at places, dinner two reservations.

I'm so on to this life style, I'll put you on to it.

Baby, Tyga's down just don't run from me.

Cuz theres carpets everywhere we go now, poppin

From party poppin with popular crowds, getting images

flickering, PEREZ HILTON, like her dress was ridiculous

complements at tyga's expense. I'll come at them like PETE WENTZ

dont worry it's all coming back at the end.

-

Chorus:

Say you wanna let me go

and that it's gonna have to end

you can go and get a new boyfriend

but you'll never get a better boyfriend

(not like me)

I'd love to say I'll wait

but you know I don't pretend

(I don't pretend)

I'm gonna go and get a new girlfriend

Yeah I'll get myself a better girlfriend.
