

# Tyrant of Death, Bio-Cell

Devoid Bio-cell  
Lightless eternal spiral  
Mind's eye perception  
? distortion, within a self-contained dreamstate,  
Aware, of nothing  
Beyond, the void

Confliction Contraction  
Reflection Refraction  
The process undeniable

Twisted severed connections  
Misfiring echoes of  
Light and form  
Divergent inconsistent maelstrom of energy  
Chaotic flickering fragments of reality  
Boundless manifestation  
All things from one spark  
Memory fires

The locks hold bear witness, universe in creation  
Confined within the neurons  
Not of God, but human mind  
As is all reality  
Nothing more than interpretation, of electricity  
Time distorts to eternity  
Infinite possibility

Lost in an unrestricted  
Construct of glitched memories  
Vague distorted places faces  
Gaze upon me ten thousand  
Eyes  
A thousand voices chaotic  
Cacophony symphony, of insanity  
No control

Desires whisper and scream internally  
Amidst the storm  
She takes form  
Beacon of empty light stares forth  
Atop a mountain of still birth  
Blood runs through thy hair  
Eyes blackened with despair  
A cascading visage of  
Love and hate  
Lightless maw contorts and breaks  
Smile o' wretched thing

Hear thy song of the universe  
Disharmonic deconstruction of  
The walls of illusion  
Infernal majesty unfurl  
Thy wings  
And consume me whole  
Final metamorphosis of the form  
I am again within

Born of nothing, I become  
Born of all  
So I become  
O' eyeless god before me  
Mirrored eternally  
O' faceless one I eat of thee

If not god, who am I  
I return

To the void
