

Tyrone Wells, Baby Don't You Change

First time I saw you standing on the corner
Thought maybe I'd died and went to Heaven
But I got to thinking and baby, I knew better
'Cause I know that angels dont, angels dont wear high-healed shoes
I don't need an angel
That don't fly around the blue
I'd be more than grateful
With a woman that was just like you

Chorus:

Sweet baby dont you change baby don't you change
Baby don't you change, baby don't you change a thing
No baby dont you change a thing

You don't need no angel wings

You look so good you make a grown man scream oh baby no, baby no

Dont you change a thing

First time I saw your face on a photograph

I thought maybe I was looking at the cover of a magazine

oh oh oh

But I got talkin' to you and baby, I knew better

'Cause I know most models don't, models dont know how to hold a convers

I don't need a model, you can let 'em

flirt around the page or the stage

I'd be more than grateful

With a woman that had your face

Chorus:

Sweet baby dont you change baby don't you change

Baby don't you change, baby don't you change a thing

No baby dont you change a thing

Got no love for a magazine

You look so good you make a grown man scream oh baby no, baby no

Dont you change a thing

No, no, no, no, no, no

(Chorus)

Baby don't you change a thing

Baby don't you change a thing

Baby don't you change a thing

Baby don't you change, baby don't you change a thing
