

# Tyrone Wells, Happy As The Sun

Whenever this world gets the best of me  
And it all goes wrong  
I Count down the hours till we meet  
And I move along  
&#039;cause I know that when I see you I will be

Chorus:

Happy as the sun, lighter than a feather  
Walking on the clouds when we are together  
Every day with just keeps getting better  
The world&#039;s as it should be, when are you here with me  
Whenever you leave, my heart skips a beat  
Unless you are here, I am incomplete  
Like an undone song  
Only you inspire the melody in me

(Chorus)

How could I go wrong  
When you are here with me  
How could I be anything but smiling

(Chorus)

The worlds as it should be  
When you are here, when you are here  
When you are here with me
