U2, Love Comes Tumbling

Love don't need to find a way You find your own way I forget that I can't stay And so I say that All roads lead to where you are All roads lead to where you are

The seed is spilled, the bed defiled For you, a virgin bride Hide yourself in someone else Don't find yourself in me

I can't lift you up again Love comes tumbling down again

Love don't need to find a way You find your own way I forget that you can stay And so I say that All roads lead to where you are All roads lead to where you are
