

# U2, Luminous Times

Hey...sister love  
Hey...sister soul  
Hey...oh my love  
You turn me around tonight  
Hey...sister love  
Save my soul, save my soul  
Hold on to love, hold on to love  
Love won't let you go  
Love won't let you go  
Hold on to love  
See the sunshine in her soul  
Hey...sister love  
Hey...seems so bright  
She comes like carnival  
She is the big wheel  
She turned my head around  
Turned my head around  
She is the speedway  
She is the slipstream  
She is coming 'round  
Hold on to love  
Hold on to love  
Love won't let you go  
Hold on to love  
Hold on to love  
She the sunlight in her song  
See the sunlight in her soul  
She is the gun fire  
She is the car crash  
She is a avalanche  
She is the thunder  
She is the waves and  
She pulls me under  
I love you 'cause I need to  
Not because I need you  
I love you 'cause I understand  
That God has given me your hand  
He holds me in a tiny fist  
And still I need your kiss  
Hold...on to love  
Hold...  
She the sunlight in her song  
See the sunlight in her soul
