## U2, Luminous Times (Hold On To Love)

Hey...sister love Hey...sister soul Hey...oh my love You turn me around tonight Hey...sister love Save my soul, save my soul

Hold on to love, hold on to love Love won't let you go Love won't let you go Hold on to love See the sunshine in her soul

Hey...sister love
Hey...seems so bright
She comes like carnival
She is the big wheel
She turned my head around
Turned my head around
She is the speedway
She is the slipstream
She is coming 'round

Hold on to love
Hold on to love
Love won't let you go
Hold on to love
Hold on to love
She the sunlight in her song
See the sunlight in her soul

She is the gun fire She is the car crash She is a avalanche She is the thunder She is the waves and She pulls me under

I love you 'cause I need to Not because I need you I love you 'cause I understand That God has given me your hand He holds me in a tiny fist And still I need your kiss

Hold...on to love Hold...

She the sunlight in her song See the sunlight in her soul
