## Underoath, Sunburnt

BURN OUT BRIGHT HOLD THE TORCH WHILE YOU CAN DONT FADE AWAY BURN OUT BRIGHT HOLD THE TORCH WHILE YOU CAN DON'T FADE

I saw you pointing the finger it can't be getting clearer Fade out well if I have to spend it for you I guess I'll be your little marytr Fade out, fade

we've all been down this road a time or two and I swear I thought I was never coming home

Patience I know it?s hard enough for you we can't stand together
Patience I know it?s hard enough for you we can't stand together

I come up empty handed the ground is falling right where I?m shrinking Fade out I?m just away in the dark they all talk about the day I fell apart Fade out, fade

we've all been down this road a time or two and I swear I thought I was never coming home

Patience I know it?s hard enough for you we can?t stand together
Patience I know it?s hard enough for you we can't stand together

I stand before the crowd broken
I was once of this
I will never let them in, no
won?t let them intensify
and I never took my time while I was there
I never took the time

Patience I know it?s hard enough for you we can?t stand together
Patience I know it?s hard enough for you we can't stand together

I never thought I'd see the end I never thought I'd see you
