

Underscore, Sirens

I've seen it all before
but this time I'm leaving
You a bloody mess
I kiss you gently
I pray you never live another day
You satisfied, my need to hold you one last time
And I don't think, this was right
You were right I can't be wrong
So stop breathing now
you tear me apart
And the sirens keep on wailing
....down
around me again
Well just know this never helped me

so imagine how i feel
now you're gone for good
your soul can not be saved
remember all those kisses, the pain
we said we'd make it thru someday

you satisfied my need to hold you one last time
and i don't think, this was right, you were
right i can't be wrong so stop breathing now
you tear me apart, and the
sirens keep on wailing down
around me again, just know this never helped me
now

im leaving you to not be found
if i cant have you no one can
now you tear me apart
and the sirens keep on wailing down
around me again, just know this never helped me

this is what you get for what you did to me

boys are going crazy girl
