

Unleash The Archers, Time Stands Still

[Chorus:]

Abandon this sun
What's done is done
And time will go on and on
It won't be long
We will come
And time will go on and on

Hold on, though it seems that the end
it is now upon us
Fear not the fall
Rise up, we will find there's a way
For us to carry on
For once and for all

Fortune's favor is ours now
Ride to glory

Stand with us, be the one that will lead them
When the night is over, answer the call
Rebuild, history can only be written
By the victors, and we will write it all
Break through, when the walls have fallen
And the ash has lifted, light will come
Gather now, we have risen on the winds
of our transformation, we finally have won

[Chorus]
