

# Urban Cone, Old School

She thinks that love is overrated,  
She says she's heard it all before,  
Keep saying chivalry has faded,  
Girl I can't wait to prove you wrong

I'll give you the world if you want,  
or we could take the top down by the coast line kissin every red light

Let me love you old school,  
I know you will dig it,  
Let me take you downtown,  
Date night, I'll make it  
Make it all about you  
Everything that I do is to love you old school  
Let me love you old school

You tell me we are complicated,  
So I bring flowers to your door,  
Keep saying we will never make it  
Girl I can't wait to prove you wrong  
I'll give you the world if you want,  
and we'd be counting the stars in the bright night kissing in the moonlight

Let me love you old school,  
I know you will dig it,  
Let me take you downtown,  
Date night, I'll make it.  
Make it all about you,  
Everything that I do is to love you old school,  
Let me love you old school

I'll give you the world if you want,  
I want to hear you say woo when the beat drops banging on the boom box

Let me love you old school,  
I know you will dig it,  
Let me take you downtown,  
Date night, I'll make it.  
Make it all about you,  
Everything that I do is to love you old school,  
Let me love you old school
