

Usher, Crash

Would you mind If I still loved you?
Would you mind if things don't last?
Would you mind If I hold onto
You so that I won't crash?

Morning light, I'm at your door
One last time
And no one's there
Nobody!, no!
Drove all night
Just to keep you home
Would you mind if I waited?
Would you mind if I wait right here?

nd I really, really, wanna love you
And I'm really only yours
Even if it don't last forever,
I wanna let you know
We really had something special,
It's hard traing let it go
I'm just being honest, I'm still in the moment

Would you mind If I still loved you?
Would you mind if things don't last?
Would you mind If I hold onto
You so that I won't crash?

Up all night, can't let go!
Won't stop trying
Need you to know
It's worth the fight
If I get back come
Hope you don't mind I waiting
Would you mind if I waiting right here?
