

Usher, I Can't Let You Go

Yo, shit
I'm sick of this man
I can't even take no more
Cause I hate the fact that I love you so much
And you know what I'm sayin'
You don't even understand what this is doin' to me
Everytime I try to get away
I just can't let you go, you know what I'm sayin'
I just can't let you go

I never ever wanna hurt you
I just wanna love ya
I just wanna sex ya up
wanna give you everything you need
Things you want, just lay down
Let me love ya all night long
I don't wanna leave ya, I just wanna keep ya
When they saw me, they saw you
Damn the world, it's just me and my girl
That's how I felt, Every time I thought it was right
It went left

We used to laugh and party
now all we do is argue
I tell myself I don't want you no more
but I can't let you go

So much love and hurt and hate, people screaming it won't work
time and time I say I'm gonna leave
but I can't let you go

(You know what man
You wanna be real insensitive and act kinda funny man
You know what man you ain't even gotta wait till the morning man
You can get outta here at night man
Hey yo Glenn go grab her s*** and get her outta here!!)

Baby you don't gotta like me
but you not gonna fight me
You can't walk away and say
I never gave you everything you want, thing you need
all we ever do is argue all night long
I don't wanna leave you, see you
with another brother lovin ya sayin'
damn the world, it's just me and my girl
that's how I feel
when you think everything is real
but it really ain't

We used to laugh and party
now all we do is argue
I tell myself I don't want you no more
but I can't let you go

So much love and hurt
and hate, people screaming it won't work
time to time I say I'm gonna leave
but I can't let you go

We used to laugh and party
now all we do is argue
I tell myself I don't want you no more
but I can't let you go

So much love and hurt
and hate, people screaming it won't work
time to time I say I'm gonna leave
but I can't let you go

(JD)

Got me walkin' around ready to snap
Got me walkin' around lookin for somebody to slap
Got me goin', goin', with no pause (?)
Got me up in Cartier every day just cause
Got me arguin' about little stuff
she don't call lil' stuff
when it get a little rough,
We kiss and make up
She wanna say what she wanna, I don't play that
She wanna constantly bring up shit from way back
Got me thinkin' about her while I'm watchin' a flick
Got me dippin through traffic tryin' to get home quick
Got me talkin' to myself "I'm hatin' this"
Got me wantin' to wild out like I'm Jadakiss
Got me in a place I never thought I would see
Got me not wantin' to stay, and not wantin' to leave
Got me happy
got me confused
Got me wishin' I could get it how I used to

We used to laugh and party
now all we do is argue
I tell myself I don't want you no more
but I can't let you go

So much love and hurt
and hate, people screaming it won't work
time to time I say I'm gonna leave
but I can't let you go

We used to laugh and party
now all we do is argue
I tell myself I don't want you no more
but I can't let you go

So much love and hurt
and hate, people screaming it won't work
time to time I say I'm gonna leave
but I can't let you go
