## Vanilla Ninja, Gotta get it right

I remember well I had times like hell But found simply no Escape

Broken and depressed I just missed all the best My heart felt out Of shape

Gotta get it right Gotta gotta get it right

Gotta get it right Gonna make me fight Gotta get it - gotta get it right Tonight Gotta get it right Gonna make me fight Gotta get it - gotta get it right Tonight

Cos I felt I simply must Let all my tears turn to dust Gotta get it right Gonna make me fight Gotta get it – gotta get it right tonight

Nearly lost my face In so many ways And I tried to keep Control

I just stayed alone Did it all by my own To crumble down the wall

Gotta get it right Gonna make me fight Gotta get it - gotta get it right Tonight Gotta get it right Gonna make me fight Gotta get it - gotta get it right Tonight

Cos I felt I simply must Let all my tears turn to dust Gotta get it right Gonna make me fight Gotta get it – gotta get it right tonight

Life turned My heart learned I can reach the sky Crash the gates Find the fates Where heaven waits Where heaven waits

Gotta get it right Gonna make me fight Gotta get it - gotta get it right Tonight Gotta get it right Gonna make me fight Gotta get it - gotta get it right Tonight

Cos I felt I simply must Let all my tears turn to dust Gotta get it right Gonna make me fight Gotta get it – gotta get it right tonight

Gotta get it right Gotta gotta get it right
