

Vanishing Point, As December Fades

Rest the world inside my head
Empty this silence and bring it to end
Lead me through, guide me to see
Erase this struggle, within me

All that I am, all that I was inside
All that I feel has

Turned away, the fear and the strength within
Another empty lie
At the end, there is no more dying inside
I'm free not afraid
As December fades

Rest the world inside my soul
Selfless I'm learning what makes me whole
Awaken through another chapter done
I run through the night to the end of light
Erase this struggle, I've moved on

Turn away, the fear and the strength within
Another empty lie
At the end, there is no more dying inside
I'm free not afraid
As December fades
