

Vanishing Point, Circle of Fire

These eyes see another day of burning
This life will make a stand or fall
These hands hold a broken world that's turning
This voice will not die alone

Will not die alone, will not die alone
Let light in

Don't fear the daylight, it's rising
Walk with the fire as one
Don't fear the daylight keep fighting
Let light in
Walk with the fire

These hands built another empire falling
It's time to make a stand for all
These hands uphold the world from burning
Our voice will not die alone

Don't fear the daylight, it's rising
Walk with the fire as one
Don't fear the daylight keep fighting
Let light in
Walk with the fire
