

Velvet, Friendly Fire

Shut the door
Kill the lights
Loosing track of time
Be with me
Stay for the night
Leave the world behind

You love me all over again
Again
I breath you in
When the night never end

We're burning out
Fall into the Friendly Fire
Fire
Can get enough
Fall into the Friendly Fire
Fire, Fire, Fire

Can you hear sirens, sirens?
Make echo in the silence, silence?
Can you hear sirens, sirens?
Higher, higher
Tonight
Fire
In the Friendly Fire

Lift me up
Take me down
Show me every room
In your arms hold me tight
Never let me go

You love me all over again
Again
I breath you in
When the night never end

We're burning out
Fall into the Friendly Fire
Fire
Can get enough
Fall into the Friendly Fire
Fire, Fire, Fire

Can you hear sirens, sirens?
Make echo in the silence, silence?
Can you hear sirens, sirens?
Higher, higher
Tonight
Fire
In the Friendly Fire

Head down
Head down
I can't take it no more
Head down
Head down
But I will stay with you
With you
We're burning out
Fall into the Friendly Fire
Fire
Can get enough

Fall into the Friendly Fire
Fire, Fire, Fire

Can you hear sirens, sirens?
Make echo in the silence, silence?
Can you hear sirens, sirens?
Higher, higher
Tonight
Fall into the Friendly Fire
