

# Venus, Pop Song

Well let me tell how it came  
You won't believe it  
I was alone, I recall  
It was such a bad day

I was so down that I prayed  
To some god to help me  
To find again my way  
What wouldn't be easy

I was afraid not to keep  
Just a little hope in me  
I couldn't stand what I'd lived  
However I had

All my love to give, all my life to live  
All my love to give, that's what I needed  
All my life to live  
I wanna be in overdrive

Well she appeared in the sky  
Just like an angel  
Who's coming down from the stars  
It's unbelievable

I cannot say how I feel  
Now that I met her  
My pain is healed, she can see  
All I have is

All my love to give, all my life to live  
All my love to give, that's what I needed  
All my life to live  
I wanna be in overdrive

Now I can feel so high, I can't believe it  
Since you stole my heart, I can't believe it  
Now I can feel so high, I can't believe it  
Since you stole my heart  
Think I'm in overdrive
