## Venus, Wanda Wulz

It's not me It's not me It's not me I'm not here It's not me I guess This is fake I can't even get What you say It's not me It's not me No, it's not me at all And I grit my teeth But I choke I just need to breathe In that warmth I'll go where I'll get rid of me I'll float, I'll bleed Get rid of me It's not me It's not real Can't recall What I'd been It's a mess I'm in l just try To get out of me For a while It's not me It's not true I think nothing of you This time I escape And I throw All my past away And I hope

I'll go where I'll get rid of me I'll float, I'll bleed Get rid of me
