

Verbena, Desert

im in love with the size of a desert
never seen it but id love to kiss a cactus
got my hands on a piece of the good earth
both my hands up inside of a new world
its exactly by the pound
i do i do
i would never ?
this excitments got me down
i do i do
desert grows to the size of a fever
desert smiles at the feet of a new boy
desert gets everything it ever wanted
im in hate with the size of a desert
this excitements got me down
i do i do
i would never do it ?
this excitements got me down
i do i do
im in love with the size of a desert
never seen it but id love to kiss a catcus
got my hands on a piece of the good earth
both my hands up inside of a new world
this excitements got me down
i do i do
i would never do it ?
its exactly by the pound
i do i do
i would never leave now ?
this excitements got me down
i do i do
i would never leave now ?
i do i do
its exactly by the pound
i do i do
