

Vertigo Angels, Firefly

you crush me in i'm broken choked on words unspoken i just want to run away
'cause each word spoken is a chance that's broken in me i just want to run away
but i can't let you down i can't let you down i can't let you down i'm crushed but fear is flying
firefly 'cause i know i'm going to show i i was born for so much better than this
firefly 'cause i know i'm going to show i i was born for so much better than this
my chance is passing every day deity is laughing i just want to run away
you said too much with nothing i'm not your crutch or something i just want to run away
but i can't let you down i can't let you down i can't let you down i'm crushed but fear is flying
firefly 'cause i know i'm going to show i i was born for so much better than this
firefly 'cause i know i'm going to show i i was born for so much better than this
better better
i'm crushed but fear is flying
i'm better i'm better
i'm better i'm better
firefly 'cause i know i'm going to show i i was born for so much better than this
firefly 'cause i know i'm going to show i i was born for so much better than this
better better
i was born for so much better
i was born for so much better
