

Victims Family, 3 Piece Loincloth

Creepy, college educated, straight-laced, middle class, got a good career and some great prospects, well respected in the community, he works for the Republicans, drives a late model white Miata or something like that, anyway he's got the usual facade and at night he drives around and rapes and kills just for kicks.

He's a well-respected, self-righteous, upstanding, good person, likes to be spanked while he's wearing a diaper, looking at the world from the fiftieth floor, I wish you'd f**king jump, but you only laugh more. "The world's my oyster, so ripe for the picking but I just can't live unless you're my victim."

Oh he's such a handsome, neat well-groomed guy, perfect pecs from the soloflex, likes to kill for anal sex, WHAT A F**KING SCUMBAG, such a nice happy slasher, "Oh she wouldn't give her love, so I had to kill her" he's a caveman in a three piece loincloth suit, clothes make the man, what a charming young brute.
