

Victoria Nadine, hope ur miserable

I hope you're miserable,
I hope you lose it all
Hope you awake with no one left call
I hope you're miserable

You said you loved me with your hands on someone else
Try to deny it then you tell me i need help
You made me feel small
Oh i bet you feel like a real big man
You play the narcissist so well

I'm so tired of holding on to this regret
So I just gotta get this off my chest

I hope you're miserable,
I hope you lose it all
I hope karmas gonna get you when you're all alone
I hope you fall in love and then she breaks you heart
Hope you awake with no one left call
I hope you're miserable

I had your back and i stood by you at your worst
I got some stories that nobody else has heard
Could make you look small
Give you everything that you deserve but
Not gonna drag you through the dirt

I'm so tired of holding on to this regret
So I just gotta get this off my chest

I hope you're miserable,
I hope you lose it all
I hope karmas gonna get you when you're all alone
I hope you fall in love and then she breaks you heart
Hope you awake with no one left call
I hope you're miserable

(When u think of me at night)
I hope ur miserable
(When there's no one by ur side)
I hope ur miserable
(Every time u close ur eyes)
Hope u lie awake with no one left to call
I hope ur miserable
Mmm
I Hope ur miserable
Mmm
