

Villains To The Masses Heroes To The Holy, Good

Well I took a little trip
Far away to meet a girl
And when I got there she was waiting
Pretty has a pearl
Heavenly blue were her big eyes
When I think back now,
I think it was a disguise
Her hair was a devilish red
And made crazy thoughts run through my head

So I took a chance
Call it good or bad
I'd never take it back
Now that I remember
I was so full of anger
Everyone was glad
Was it good or bad?

Derek, was it good or bad?

It turns out I was right
It was a disguise
One second the girl loved me
The next, I was despised
Her beautiful smiles made me happy
But her angry scowls made me weary
Did this girl really say all these things
Did this girl, really love me

So I took a chance
Call it good or bad
I'd never take it back
Now that I remember
I was so full of anger
Everyone was glad
Was it good or bad?
