

Visions Of Atlantis, Clocks

Time as you know
Let it go with the flow
Make a golden play
Out of every day
As the tick-tick-tock
From the clock
Is never-ending

I devise so many plans
How to rule my world, how to write my story
I enjoy all that I can
For happy times will turn to memories

I've been living in the past
Turned my lonely days into lonely future
Now, I leave it all behind
As the present time is the only one that lasts

Braving the clock takes its power away

Time as you know
Let it go with the flow
Make a golden play
Out of every day
As the tick-tick-tock
From the clock
Is never-ending

Stay in the now
Let it go and allow
Fill the empty space
With the moment's grace
As the tick-tick-tock
From the clock
Is never-ending

Fate is laying all the cards
From a free men's world, to a golden prison
Now, we're living all apart
As pressure on mankind has risen

Try and find the other side
What we can't control, what we must surrender
All that we have to decide
Is what we should do with the time that's given us

Braving the clock takes its power away

Time as you know
Let it go with the flow
Make a golden play
Out of every day
As the tick-tick-tock
From the clock
Is never-ending

Stay in the now
Let it go and allow
Fill the empty space
With the moment's grace
As the tick-tick-tock
From the clock
Is never-ending

Time as you know
Let it go with the flow
Make a golden play
Out of every day
As the tick-tick-tock
From the clock
Is never-ending

Stay in the now
Let it go and allow
Fill the empty space
With the moment's grace
As the tick-tick-tock
From the clock
Is never-ending

Make a golden play
Out of every day
As the tick-tick-tock
From the clock
Is never-ending
