

# Visions Of Atlantis, Send Me A Light

Walk through darkened shrines  
Sadness my guide  
My night has come  
Loneliness my friend  
My self built land  
Until the end

Rain clouds, darkness, coldness I'm satisfied  
Hate and anger, fear is my guiding light  
Hear me screaming, crying your name up to the sky  
Hope for your sign, send me a light rescue my soul, set me free

Send me a light  
Out of my night

Lay your arms on me  
To set me free  
My fear is me  
Take my hate away  
Let pain astray  
Show me this way

Night falls, dark dreams, blackness comes over me  
Endless sorrow, this is what I can see  
Hear me, help me, your love could set me free  
See me bleeding, don't go away leave me alone, in my night

Send me a light  
Out of my night

Curse the darkness, for I can free my soul  
Freedom calls me, I won't be left alone  
Dreaming your dreams, could be reality  
You are my dream, see what I've seen and come with me, into light

Send me a light  
Out of my night
