

VIZE x Tokio Hotel, White Lies

Do you believe in live it
When i say it's you i needed

It's like i ma dreaming
Cuz you helped me stop the bleeding

Don't wanna be alone tonight
Don't think too much
Just turn off the light

Back and forth
Like all of the time
Know it's alot
But just don't think twice

Where to go
I don't even know
Only big white lies
To get by cuz

I don't wanna make you cry
Stay here by my side
Only big white lies
To get by cuz

Don't know where to go
I don't even know oho h
I've been telling you lies so you would stay

I don't wanna make you cry
Stay here by my side
Only big white lies
To get by cuz
I don't wanna make you cry
Stay here by my side
Only big white lies
To get by cuz

Say can you feel it feel it
There's this crazy thing between us
Don;t need a reason
Where you at
I wanna be there
