

Volbeat, Pelvis On Fire

i'm customized to do everything i shouldn't do
I've learned all that o know by stubbornness and the blues
I got my schooling more or less on the street
my eyes have seen a thing or two
and though my heart has made me weary
I like everything about you
yes, I do /4x

I like the way you look
the way that you talk
I like the way that you move when you walk
my mind is set on you
my pelvis is on fire
and I can't shake if off
my brain is out of timing
what's life without any shaking
a little bit of juicy pussy pin-up
the jukebox down in the corner needs a coin for a Sad Man's tongue
when you shake the thing
I am down on my old knees
you go girl, I am in love with you
and though my heart has made me weary
I like everything about you
yes, I do /4x

I got a bullet living inside my head /5x
baby bullet dear /4x
