

# Wade, Sit Down

Pour me your mind  
days i feel like crying/wine?  
said that i could take this world  
without leaving this behind  
no one to blame  
compared they're all the same  
not her  
but oo oo i did  
and now im mad

hard lip it live  
just let it be  
heres to all and  
all of what i wanted you to see  
chasing my days  
cutting out the grays  
not her  
but oo oo i did  
we've got a man

let me sit down for awhile  
let me clear my mind just for awhile  
let me sit down for awhile  
let me clear my mind and clear my mind  
and clear my mind just for awhile

alone in my car  
whispering star  
comes just like the big surprise of who we really are  
pour me your mind  
days feel like crying/wine?  
like her  
but oo oo im leaving this behind

let me sit down for awhile  
let me clear my mind just for awhile  
let me sit down for awhile  
let me clear my mind and clear my mind  
and clear my mind just for awhile

let me sit down for awhile  
let me sit down for awhile  
let me sit down for awhile  
let me sit down for awhile

i did this just from listening to the song,  
a few parts im not rlly sure on,  
but nobody has WADE lyrics, so i gave it a shot.
