## Waik, Into The Ground

Throw the switch down now, it's never felt so alive, take a snapshot of my Mind, what's hidden inside, you'll know soon, inhibitions gone Mind, on the outside, go slow slow, now put to its best use.

She touches me, in ways i've never ever seen, she touches me

Mind, manipulate time, I swallow, time to catch my breath Mind shifting time, don't go home, I'll put to its best use.

She touches me, in ways i've never ever seen, she touches me

It's time to wake up from this, you've sufferred long enough No longer running from it, you suffer long enough.

It's never felt so alive, take a snapshot of my Mind, what's hidden inside, you'll know soon, inhibitions gone Mind, on the outside, go slow slow, now put to its best use.

She touches me, in ways i've never ever seen, she touches me

It's time to wake up from this, you've sufferred long enough No longer running from it, you've sufferred long enough.
