

# Walk in Darkness, On The Road To Babylon

Before the last leaves fall  
Leave the crowd behind you  
And, when we're alone, watch me  
You won't get any answers  
Along the roads of the world,  
Only my body can make you a God  
Come near,  
Don't look around you,  
The world is changing, the world is imploding  
To advancing global madness

Oh, we're back on the road to Babylon  
We have raised another Babylon  
And once again we are awaiting trial  
We laid the foundations in the depths of the earth  
And stone by stone we rose to the sky  
Like Gods, like Gods  
Now, all things lapse,  
Once again,  
Only dreams remain  
Like gardens suspended in the sky  
Another Babylon  
Oh, the circle closes once again

For thousands and thousands of years  
We're still on the road, on the road to Babylon  
On the wave of fading time  
Like the smell of gardens by the side of the road

Just a drop of beauty left behind  
From the flow of the tide that rises and falls  
Like human madness  
Come, come close to me  
Before the last leaves fall  
And, when we're alone, touch me

Another world of bleak skies,  
A suffering trans-humanity  
Like swarming of metal bodies  
Along the lines of destiny  
For thousands and thousands of years  
We're still on the road, on the road to Babylon  
On the wave of fading time  
Like the smell of gardens, by the side of the road
