

Walk The Moon, DNA (The Keys)

Sometimes i need to forget where i came from
Just to remember that i'm here at all
Well, I believe that it takes one to know one
Guessing the fire by the shapes on the wall

There ain't no running away
Ain't no fire escape
Tehre ain't no running away
It's in your DNA
It';s in your DNA
You already know

Release yourself
There';s no one else
Until you free yourself
You can't help nobody else
Nobody else
You got the keys

are you in a cage?
vertical lines throwing stripes on the floor
are you in chains?
long helpless nights with your eyes on the door

There ain't no running away
Ain't no fire escape
Tehre ain't no running away
It's in your DNA
It';s in your DNA
You already know

Release yourself
There';s no one else
Until you free yourself
You can't help nobody else
Nobody else
You got the keys
/2x

Sometimes i need to forget
Where i came from
Just to remember i have soemwhere to go
Well i belive taht iit takjes one to know one
You already know
