

Walk The Moon, Kamikaze

here in this room
I'm chasing down my demons
I can hear them breathing
but who knew
you would be my comfort
you could bring me healing
well if my friend's gonna let me slide
how come you never left my side
before go make it last all night
while I slip into the great divine

mama
stepping out a party
no matter what you call it
I'm a kamikaze
abandon all your logic
and put your money on it
I'm a kamikaze
going down with my rings on fire
guess I'll save you in another life
mama
stepping out a party
you can tell everybody
mama, I'm a kamikaze

all is not lost
my veins are seething
I can feel the freedom
let them talk
it's not about the crown
we can share the kingdom
well if my friend's gonna let me slide
how come you never left my side
before I go make it last all night
while I slip into the great divide

mama
stepping out a party
no matter what you call it
I'm a kamikaze
abandon all your logic
and put your money on it
I'm a kamikaze
going down with my rings on fire
guess I'll save you in another life
mama
stepping out a party
you can tell everybody
mama, I'm a kamikaze

if my friend's gonna let me slide
how come you never left my side
before I go make it last all night
while I slip into the great divide

stepping out a party
no matter what you call it
this is suicide honey
nothing you can do about it
let me take the check
with the on it
just call me kamikaze

mama

stepping out a party
no matter what you call it
I'm a kamikaze
abandon all your logic
and put your money on it
I'm a kamikaze
going down with my rings on fire
guess I'll save you in another life
mama
stepping out a party
you can tell everybody
mama, I'm a kamikaze
