

Warner Mack, Happy State Of Mind

Maybe I don't love you quite as much as I believe I love you baby
But don't tell me cause lovin' you's a happy state of mind
Maybe I don't need you quite as much as I profess to need you baby
But don't leave me needin' you's a happy state of mind
Who's to say anyway love is not the game we play
Why's it always gotta be considered of condition of the heart hmm hmm
As long as I feel warm inside wanted filled and satisfied
Who am I to be denied this feelin' be it love or be it just a happy state of mind

Maybe it's just something I've imagined in the hours when I'm sleepin'
But don't wake me cause dreamin' is a happy state of mind
Maybe I just gotta have somebody when you're close and you're somebody
But don't leave me you've put me in a happy state of mind
Who's to say anyway...
You've put me in a happy state of mind lovin' you's a happy state of mind
Havin' you's a happy state of mind
