

Warren Zevon, Dirty Little Religion

(Warren Zevon)

I like to think I've earned my reputation
For rushing in where angels fear to tread
I'll take you home to meet the congregation
We'll all get together in my tent

I make a dirty little religion out of lovin'
I'll make a dirty little convert out of you
I make a dirty little religion out of lovin'
I'll make a dirty little convert out of you

They treat you like a red-headed stepchild
And try to keep you nailed to the floor
Join us for the countdown to the Rapture
We never turned a sinner from our door

I make a dirty little religion out of lovin'
I'll make a dirty little convert out of you
I make a dirty little religion out of lovin'
It's a dirty little religion, hallelujah

Dirty little acolyte
Dirty little one
Learn the fundamentals of desire
Can I get a witness
To my testament?
Can I get an amen from the choir?

I like to think I've earned my reputation
For trying to take the bull by the horns
I'll show you where I get my inspiration
Where we plow and where we plant the corn

I make a dirty little religion out of lovin'
I'll make a dirty little convert out of you
I make a dirty little religion out of lovin'
It's a dirty little religion, hallelujah

Dirty little acolyte
Dirty little one
You'll learn the fundamentals of desire
Can I get a witness
To my testament?
Can I get an amen from the choir?
