WASP, U

Listen to me now No words, I can say, can describe How I hate your fucking face And do you hear me now You stole my soul with your lies Your killing zone's where I lie There you watched me die

You fucken suck

Can you see yourself I lie in my bed Fantasizing your death Here I lie Can you see yourself And how do you sleep with what you are? What you turned out to be Fuck you, kill yourself

You fucken suck

Liar you know I do I wish you well Liar I died for you I wish you well in hell... in hell
