

# WayV 四方V, Turn Back Time (四方V)

Light doesn't turn around the corner  
Straight line turn back  
When it's impossible to go forward

It's only natural but it's not  
Dreams fly high without wings  
And create a world  
The one chosen by the God No no

Wake up in a transparent space  
Go to a higher level

The next challenge marches towards time  
Argue whether the unknown destiny will be decided

In an instant hesitate and go back  
In an instant relax  
And go back  
Limit limit  
In an instant endure  
And go beyond  
In an instant transcend  
The limit  
Get it get it

There are no boundaries on the ground  
And the sky is limitless  
If we could turn back time  
Make a new star and turn back  
This journey is called transcending time and space
